

Career Exploration with

*Be sure to **create cohorts** from your “educator” account on CareerVillage so that you can view your students’ activity! You’ll give them an **invite code** to register with if you haven’t already done so.

Career Exploration

***Use slides 3-11 to show students in class!**

Lesson Plan Objectives:

- Students will research necessary requirements/duties for a particular career as well as other information about that career based on responses from actual working professionals.

Lesson Agenda:

- Introduce CareerVillage.org as the research resource students will be using today.
- Individual Work: Students will take a few minutes to write down 3 careers they are interested in pursuing and why.
- Partner/Class Discussion: Students will share the careers they wrote and the reasoning behind them with a partner. After, a few students will share out a career of interest to the class.
- Research: Students will research 1 of the careers they discussed with their partner using CareerVillage.org. They will use the organizer to assist them in their research and as a space to take down their findings.
- Homework: Ask 1 follow up question using the CareerVillage platform about the career you researched today. This could be a clarifying question or a question regarding information that you didn't research in your organizer today and want to know more.

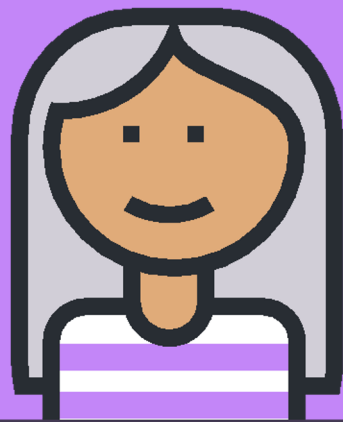

A more detailed lesson plan and other teacher resources can be found in the resources for this lesson

Career Exploration Lesson

The website that gets your questions about college and careers answered online by actual working professionals.

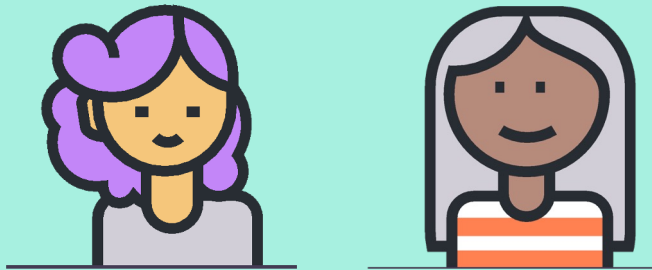

Write down **3 careers** you are interested in pursuing and **why** you are interested in them.

I'm interested
in pursuing...

Partner Discussion

The career I chose is...

Talk to a partner about why you think the 3 careers you listed on your notes might be a good fit for you. For all 3, tell

them

- What the career is
- Why you are interested in that career

Partner A will start.

Clubs vs Internships Freshman year of college

I'm an incoming freshman for this fall, and the college I am attending has so many opportunities. To the professionals and former college students, I wanted to ask: is it more important to get involved in clubs and organizations my first year on campus, or should I be pursuing more professional...

To research, enter #hashtags about the career in the search bar at the top of your page

Research

Today you will use the **Search Function** in CareerVillage.org to help you research 1 of the 3 careers you discussed with your partner today

When searching make sure to include #hashtags that identify the

1. **Career** you are learning more about today. Ex. #Nurse-Practitioner
2. Words or phrases that specify **what you are asking about**. Ex. #Salary-Range

Research

Today you will use the **Search Function** in CareerVillage.org to help you research 1 of the 3 careers you discussed with your partner today

When searching make sure to include #hashtags that identify the

1. **Career** you are learning more about today. Ex. #Nurse-Practitioner
2. Words or phrases that specify **what**

***Remember, multiword #hashtags need to be hyphenated.**

1) Open up/turn on your computers and head over to www.CareerVillage.org

2) Log In to your account

3) Research 1 of the careers you talked about with your partner using the organizer!

Be sure to ask for help if you have trouble logging on!

Homework

Ask 1 follow up question on CareerVillage about the career you researched today.

- This could be a **clarifying question** for a professional to respond to or a question about something that you didn't research in your organizer today and **want to know more about.**

Thank you!
